Newer Avenues in Periodontics

The department and the faculty are inclined towards the students for enriching their knowledge and skill with the fusion of basic and advanced periodontics clinically and thereby help them with higher confidence and success in their clinical practice.

Conventional Periodontics

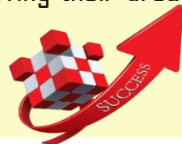

Special emphasis on the basic procedures is given as they form the foundation for the skill and development of the students. Both Non-surgical and Surgical therapeutic procedures in various dimensions will be practiced by the undergraduates and postgraduates.

Advanced Periodontics

Advanced techniques in both the diagnostics and treatment procedures. The state of art equipment like the **ELISA** analyzer helps in easy and early diagnosing. Surgical procedures like **MIST**, Microsurgery, Implants using various systems, **LASERS**, Smile designing through interdisciplinary approach, Aesthetic procedures and also Preventive Periodontics form the core of advanced periodontics.

Support

The students are motivated and guided even after completion of their courses in achieving their dreams and goals.

Our Achievements: 5+ Best Paper/Poster winners in State/National Conferences, 18+ Articles & 20+ Books published by our Postgraduates & faculty so far.

Courses Offered

- Bachelor of Dental Surgery (BDS)
- Master of Dental Surgery (MDS)

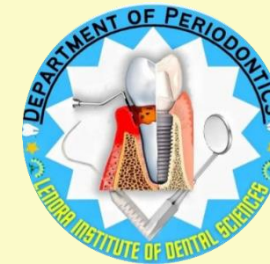

Our Team:

1. Dr. Chakravarthy.Y.S.H.S, Prof & HOD
2. Dr. Nishanththoury.S, Professor
3. Dr. Anusha.G, Assoc. Professor
4. Dr. Madhusudhan.R.M, Assoc. Professor
5. Dr. Rupasruthi.K, Assoc. Professor
6. Dr. Mohan.K.Reddy.V, Assoc. Professor
7. Dr. Santhi.G, Assoc. Professor
8. Dr. Ravikiran.S, Asst. Professor
9. Dr. Satish.A, Asst. Professor
10. Dr. Niharika.B, Asst. Professor
11. Dr. Bharath.S.Reddy.D, Asst. Professor
12. Dr. Sravani.G, Asst. Professor
13. Dr. Sriram.N.N, Asst. Professor

DEPARTMENT OF PERIODONTOLOGY & IMPLANTOLOGY

*Smile
A Beautiful Curve
that sets everything Straight.*

ORAL HEALTH FOR TOTAL HEALTH

LENORA INSTITUTE OF DENTAL SCIENCES

www.lids.ac.in

The Department of Periodontics provides an all-round development programme through undergraduate and post graduate training, patient care and research. The Department is well equipped with modern dental chairs and advanced surgical equipment like **LASER, DASK & Implant Systems**, and many more.

Our Aim

To promote and engage excellence in learning Dental Implants with patient-oriented care and develop leadership qualities in students in the field of education, scientific research, and community services. Make disease prevention as a cornerstone in treatment philosophy. Equip students with knowledge and skills on diagnosis and management of patients and develop competent clinicians with the ability to think critically. To provide comprehensive periodontal and implant-related treatment.

Objectives

Training in non-surgical, surgical and implant procedures along with the research has been the prime objective of the department and implement infection control programs for clinical dentistry and communicate effectively with other health care professionals.
