About the Department

We offer cutting edge treatment techniques in a comfortable environment as we train future orthodontists to deliver modern orthodontic care for children and adults.

The Department offers a wide range of Orthodontic services including comprehensive treatment of bite problems, mal-aligned teeth and jaws, and jaw growth problems for children and adults.

The Department extends over 4515 Sq ft with half of the area being the clinical space i.e., 2208 Sq ft with wellspaced Laboratory, Photography room, Seminar room, Patient waiting room, Preclinical labs, Department library and Faculty rooms with a dedicated PG common room.

Cutting Edge Technology

Diagnostics:

3D CBCT, 3D Simulation

NemoCeph imaging software -A powerful diagnostic and patient communication tool which allows visualization and analysis of craniofacial structures.

The department also conducts interdisciplinary discussions which fall within the responsibility of Orthodontics.

Under Graduate students on posting are taught about the subject through clinical discussions & demonstrations.

The postgraduate section has adequate dental chairs with all modern amenities. Prepares qualified dentists to manage the full range of Dentofacial discrepancies like Cleft lip and palate, skeletal malocclusions, surgical management etc.

Seminar Room

Photography Room

UG- Preclinical Area

PG- Preclinical Area
